## AquaJoy Premier Plus Bathlift - Why choose any other?

Healthcare Professionals and Loan Equipment staff have always had a choice of bathlifts available to them and their clients. However, never before has a bathlift been designed and developed 100% around their needs. Here at AquaJoy, we hope to have answered all your questions.

- Do you need a bathlift to recline and a bathlift to sit upright?
- Do you need a bathlift that has covers and a bathlift that doesn't?
- Do you need a bathlift with a heavy duty weight limit?
- Do you need a bathlift that is extremely easy to put together and take apart?
- Do you need a bathlift with an operating hand control designed by the client for the client?
- Do you need a bathlift that is easy to take in and out of the bath, but also a bathlift that guarantees stability at all times?
- Do you need a bathlift that goes as far back in the bath as possible and fits awkward baths – narrow, deep or corner?
- Do you need a bathlift that can have accessories added to suit different types of client's needs including children?

*The AquaJoy Premier Plus does both – the ultimate “2 in 1” bathlift.*

*The AquaJoy Premier Plus can be used with or without covers.*

*The AquaJoy Premier Plus has a maximum weight limit of 26.7 stone (170kgs) as standard.*

*The AquaJoy Premier Plus has been designed paying paramount attention to the simplicity of installation for users, carers and specifiers.*

*The AquaJoy Premier Plus fully lightweight, floating handcontrol has large convex and concave, soft to touch buttons ideal for arthritic or partially sighted clients. The flat to flat, easy to grip, pronged connector is extremely easy to use and understand.*

*The AquaJoy Premier Plus “easy release suction feet with lifting bar as standard” ensure clients and carers can remove their bathlift so easily, whilst ensuring stability and suction at all times.*

*The AquaJoy Premier Plus maximises legroom in the bath. It has a narrow frame of 15.2 inches, a maximum height of 18.1 inches and a seat width of 27 inches – the AquaJoy Premier Plus bathlift is more versatile than any other.*

*The AquaJoy Premier Plus can be converted into the Junior Plus bathlift for children and can have accessories such as upper body support wings, head rest, swivel and slide turning disk, lap and chest harness, wedge cushion, pommel and carrying bag added to the standard model – offering more choice, versatility and value for money for service providers and clients.*

● “ In this day and age, to receive such high levels of service is rare - thankyou AquaJoy” ●

# AquaJoy Premier Plus Bathlift - We've Listened

Developed and designed with YOU in mind

The AquaJoy Premier Plus is a two piece, lightweight, battery operated bathlift which fits into any style of bath – even corner baths. It can be electronically reclined or stopped at a comfortable upright sitting position, allowing the individual to choose the most comfortable bathing position for them.

The bathlift maximises legroom in all baths and with the easy release suction feet and lifting bar as standard, the Premier Plus can be taken in and out of the bath with great ease. It is the easiest bathlift to put together and take apart, ensuring ease of use and transportation for all involved. The extra wide, comfortable seat allows the user to feel stable and safe at all times.

The AquaJoy Premier Plus can be used with or without covermats. The standard covermats are easily removed and can be washed in any normal washing machine up to 60 degrees.

The fully waterproof, floating, lightweight operating hand control is extremely simple to use and understand. With convex and concave buttons as well as an indicator light, the control is ideal for all types of users, including clients who are partially sighted or arthritic. The charging process is simple to use and understand. The battery safety mechanism will not allow the bathlift to lower unless there is sufficient charge to raise the bathlift back to the top of the bath. The 170kg (26.7 stone) weight limit also ensures the bathlift will also be suitable for heavier clients.

The AquaJoy range of accessories including gel covermats, children's patterned covermats, upper body support wings, swivel and slide turning disk, headrest, lap and chest harness,ommel, wedge cushion and carrying bag can be added onto any Premier Plus bathlift, allowing versatility for clients and better options for Loan Equipment Services. The AquaJoy Premier Plus is produced with NANO technology to reduce the risk of cross contamination and infection. Sideflap / Handle diverters are packed free of charge in every box and extra suction cups can be added for baths with awkward ripples or dimples.

● "At last, an OT friendly lift which also benefits lone carers as well as service users" ● "I would not hesitate to recommend this versatile product." ●

## The Organisation

AquaJoy Bathlifts Ltd has established an enviable reputation for providing first class reliable products supported by unbeatable levels of customer support throughout the UK and Europe. The company and its staff are renowned for "always putting the customer first".

The AquaJoy Premier Plus and Junior Plus Bathlifts have been developed and designed after in depth market research from healthcare professionals and end users. Because of this, the bathlifts have become firm favourites throughout the UK and Europe, meeting more clients' needs than any other bathlift has ever done before.

THE ORGANISATION

## AquaJoy Junior Plus Bathlift

Making bathtime easier for children and their carers

As children become older and bigger, bathtime can sometimes prove difficult. The AquaJoy Junior Plus has been developed and designed to make bathtime easier, safer and more enjoyable for all involved.

The AquaJoy Junior Plus bathlift is a two piece, battery operated bathlift which is extremely easy to put together and take apart, making it simple for parents to take in and out of the bath.

The Junior Plus can be used in any family bath and has been designed so that it can suit different types of children's bathing needs. The bathlift, with pretty patterned covers, can be reclined or stopped at a comfortable sitting position so that the child and parents can find the most suitable bathing position.

Because the bathlift is so compact, there will still be plenty of space in the bath, allowing ample room for the child to play, have toys or even have a sibling in the bath with them.

Detachable backrest wings can provide upper body support and safety and can be easily attached after the child has transferred onto the bathlift. An extremely easy to use "push in, pull out" pommel or alternative wedge cushion can be placed on the bathlift seat to prevent slipping. Optional lap and chest straps provide extra safety and reassurance for all involved. Easy to use, yet very effective, parents and carers can feel 100% confident when using the AquaJoy Junior Plus at bathtime.

The unique optional Gel Filled Covermats are an ideal option for further padding. With a maximum weight limit of 170kg (26.7 stone) the AquaJoy Junior Plus is very stable and secure, allowing it to be suitable for a wide range of children's needs.

The AquaJoy Junior Plus has made a difference to bathtime for families throughout the UK. The bathlift has been used for a child as young as 18 months old. Sale or Return options available for parents and carers on request.

The AquaJoy Junior Plus is the same bathlift as the AquaJoy Premier Plus, but simply with additional accessories added onto it. Community Equipment Services throughout the UK stock the AquaJoy Premier Plus as their standard bathlift for the majority of elderly and disabled clients. They can then order accessories to tailor the bathlift to suit more specific needs, including children's. This bathlift versatility allows a more cost effective way of providing equipment to a wider range of clients and their carers.
